Completeness

- 65 random samples from floor to validate completeness
- Five sites:
 - Susquehanna, *Barstow*, and Anniston - 15 locations selected
 - San Diego and San Joaquin - 10 locations selected
- To validate materiel is recorded in DLA Distribution Standard System (DSS)
- Counts of these samples were not required
 - Once the team knows the building number:
 - Randomly select the bay, aisle, location and level for each sample to be selected.
- This didn't require statistical formula, but to ensure randomness it should be recorded prior to starting warehouse observations.

Way Ahead

- Each Service will validate their FY2012 CFO Inventory results
- DLA will validate DLA results of the FY2012 CFO Inventory and report to DoD
- Submission of FY 2013 observers requests forms must be received no later than August 16, 2013 (2 weeks prior to start of CFO Inventory) to avoid coordination pitfalls
 - September 1, 2013 is on a Sunday and Sep 2, 2013 is Labor Day
 - September 3, 2013 is projected start of 2013 CFO Inventory
- Overall success
